## Internships in Canada

Living and working in Canada may be a unique opportunity for an international student. It might also be an ideal method to jumpstart your career by interning in the fields of marketing, business, travel and tourism, environmental causes, engineering, and many more. Students might also develop and improve their English and French language skills with full immersion in the Canadian culture.

### Benefits of undertaking an internship can include:

Contributing to your education through course credits.

Experience working in the Canada can help your chances of finding similar work back home and abroad.

Helping improve your English and professional communication skills.

Helping you develop a network of professional contacts, this could be useful for future references.

Learning new work skills and practices.

## Entry requirements

Higher Education  
Undergraduate

To gain entry into a Canada undergraduate course you will need to have a Senior Secondary Certificate of Education (Year 12) or the overseas equivalent. IELTS is required with min. of 5.5 scores to secure admissions for UG degree programs. Further, Some courses may require some specific Subjects also.

Higher Education  
Postgraduate

Satisfactory completion of at least one degree at the undergraduate level, your institution may take research ability or relevant work experience into consideration. IELTS is required with min. of 6.5 scores to secure admissions for PG degree programs. Further, Some courses may require some specific Subjects also.

Post Graduate  
Diploma

A Bachelor's qualification is required for entry to PG Diploma studies. Specific requirements depend on the requirements of the institution of higher education and the particular course. Specific requirements may include an entrance examination, thesis plan or an interview etc. IELTS is required with min. of 6.5 score to secure admissions

## Options After graduation

International students in Canada are increasing every year not only because of the quality education but also the Canadian job opportunities provided by Canada particularly in the field of information technology, engineering, science, and mathematics. Choosing the opportunities program wise will guarantee the students to get the right job according to their field of interest.

## Major Industries for careers

Automobile  
Manufacturing  
Engineering  
Management  
Hospitality

Apart from all above-mentioned opportunities, Canada has job opportunities related to every field.
